

Your Friday Water Report

This Week's Topic:

Water Work Areas

The Water Enhancement Program addresses six broad areas within the City's water system that need to be improved.

They are:

- Conservation – Reducing use
- Storage – Reserves for drought
- Groundwater – Backup to river
- Reuse-Recycle – Use of effluent
- Surface Water – Treatment
- Distribution – Piping to customers

Each of the 11 in-work PER projects targets one area. The projects are large. Some may take up to 5 years to complete. The intent is to get the most improvement effect as soon as possible, while carefully limiting the costs. All projects have been funded through detailed design.

Daily Averages for 08/06- 08/12

Gallinas River Flow 10.25 Mgd*

This week in 2013 was 5.68 Mgd

Avg. River Diversions † 0.00 Mgd

Yr. to date 329 Mg*; year max. 896 Mg

Draw from Wells 0.00 Mgd

This week in 2013 was 0.00 Mgd

Fresh Water Demand 1.35 Mgd

This week in 2013 was 1.30 Mgd

As of 08/12/14:

Bradner Storage 71.16 Mg

Peterson Storage 56.05 Mg

Storrie Lake Storage 136.45 Mg

Reservoir Storage 79.1%

Las Vegas Rainfall 0.01"

† **Diversion meter has not been working since July 14.**

*Mgd = Million gal. per day, Mg = million gal

Did You Know? The National Drought Mitigation Center posts weekly levels of drought. On August 5, San Miguel County was down to Moderate (W) or Severe (E) from "Extreme" and "Exceptional".
